(i) Remarks the water from this well will be diverted into the present ditch system taking the water from Robertson Creek, also known as Leidy Creek, or into a new ditch system to be designated after topographical survey of the ranch is completed. The water from this well will be used in an intercommunicating or interlocking system with all the water from Robertson Creek and other wells to place the maximum acreage possible under cultivation.

DESCRIPTION OF PROPOSED WORKS

An electrically driven pump will lift the water to the surface, whence it will be diverted directly into the ditch system or carried in large pipes to the ditches.

5. Estimated cost of works about \$3,000.00

6. Estimated time required to construct works one year

7. Remarks this is a development proposition and if the wells already sunk do not furnish enough water, with that obtained from Robertson Creek, to place under cultivation all the good land in the ranch, additional wells will be drilled.
